Belvac Appoints Head of New Product Development

BOULDER–January 17, 2011. White Lake Partners is pleased to announce that its client, Belvac Production Machinery, Inc., has appointed Richard Lee as Senior Director, New Product Development.

Mr. Lee has held senior engineering roles with Quebecor World, Printpack, and Muller Martini Manufacturing. Most recently, Mr. Lee served as the Principal for Lee Engineering and Design, a provider of mechanical engineering consulting to manufacturers. He brings a deep background in machine design issues, with a focus on development of innovative products and solutions. His expertise lies in the development of disruptive technology and he has partnered with companies to help them with bold and innovative machine designs. He earned his B.S., Mechanical Engineering from the University of Kentucky.

Belvac is the world leader in the design and production continuous motion rotary machinery. It provides beverage canmakers with high-speed trimming, necking, base reprofiling and reforming, shaping, bottom rim coating, flanging and inspection technology. Now part of the multibillion dollar Dover Company (NYSE-DOV), Belvac was founded in 1962 in Lynchburg Virginia. Philosophies of quality, pride, craftsmanship, and work ethic set extremely high standards and quickly drove Belvac to become the world leader in its industry revolutionizing many manufacturing processes. For over forty years Belvac has turned innovative ideas into world class machinery. Learn more at www.belvac.com.
