

Dover Bearings & Compression Appoints Director of Sales - Aftermarket

White Lake Partners is pleased to announce that its client, Dover Bearings & Compression, has appointed Scott Hunt as Director of Sales - Aftermarket. In 2015, Dover Corporation combined two businesses, Cook Compression and Waukesha Bearings, forming the new entity, Dover Bearings & Compression.

Scott will be responsible for both aftermarket sales and strategy for the aftermarket sales side of the business. He will also help bring strong leadership and management abilities to the tactical implementation for those strategies. Scott has over 20 years of experience selling and delivering technology solutions having worked for Fiero Fluid Power, Siemens, Compressor Controls Corporation, Brance Krachy and Yokogawa. In his most recent role as Director of Channel Sales & Marketing – North America, Scott was responsible for the North American sales organization for Yokogawa and exclusive relationship builder for their key accounts.

Scott received his Master of Business Administration from The University of Denver in 2004. He received his Bachelor of Science in Mechanical Engineering from The University of Texas at Austin in 1997.

Dover Bearings & Compression manufactures specialized industrial components that are used throughout energy exploration, production, and distribution markets. Product offerings include bearings, bearing isolators, seals and compressor components that are used for rotating machinery applications such as turbo machinery, motors, generators and compressors used in energy, utility, marine and other industries.
